

INTERVIEW AND INTERROGATION

OVERVIEW

Our 3 day Interview & Interrogation class offers comprehensive practical, psychological, and emotional insight into the dynamics of interpersonal communication.

Students will learn behavior analysis skills to increase accuracy in discerning truthful from deceptive verbal and non-verbal responses from people. We explore the art of active listening and how to build rapport with people based on trust. The student will then undergo an extensive step by step walk through of the entire Interview and Interrogation process. Interspersed with the instruction are actual suspect interviews dissected and explained by the instructors, practical exercises on up to date interrogation case law, and proven lawful and ethical methods of eliciting truthful information from subjects. Our flagship I&I class is taught by current law enforcement officers practicing and teaching their proven methods from decades of experience.
